

2025 Livable & Age-Friendly Communities Grant Opportunity

Supported by The Del Mar Healthcare Fund at The Dayton Foundation

And Miami Valley Regional Planning Commission

With generous support from the DMH-Dayton Fund at The Dayton Foundation, the MVRPC Institute for Livable & Equitable Communities is pleased to announce a funding opportunity for MVRPC member organizations. Grants are available from \$5,000 to \$20,000 to support the pursuit of becoming an AARP Livable and Age-Friendly Community. The size and scope of the community will be key criteria for determining the amount awarded to each community.

AARP Livable and Age-Friendly Communities designation is a multi-year planning effort focused on recognizing and enhancing age-friendly, livable aspects of your community. This grant is intended to support new communities joining this program, as well as communities who are engaged in the multi-year planning process. Grants can support **first year** community needs assessments/survey, **second year** age-friendly action plans or community projects that address community survey results and age-friendly action plan goals.

Applications are solicited for both **Year 1**- Needs Assessment; and, **Year 2**-Action Planning/Action Plan Projects. PLEASE SELECT THE CORRESPONDING APPLICATION FORM FOR YOUR GRANT REQUEST

Grant Opportunity – YEAR 1-Assessments

The Del Mar Health-Dayton Fund at The Dayton Foundation is offering a grant opportunity to pursue Year 1 steps within the context of a larger multi-year planning effort. Size and scope of each community will guide decisions around grant amounts awarded, which could range from \$5,000 to \$20,000.

How funds are invested will be at the discretion of each community; however, grant recipients must agree to invest at least half for developing a community survey and accompanying listening sessions/focus groups and/or critical research, data analysis and technical assistance to create an action plan for age-friendly livable community initiatives. Funding assistance could also be used for team formation, the engagement of stakeholders and the recruitment of volunteers.

Grant Opportunity – YEAR 2 -Action Plans/Projects

In contrast to previous grants offered by The Del Mar Health-Dayton Fund at The Dayton Foundation, this opportunity follows a responsive grant model where members of the MVAFN are encouraged to propose improvements, undertakings or projects they believe will advance age-friendly initiatives for their community. Essentially, we are asking you to make proposals.

To spark more discussion within your team, proposals for funding might entail:

- Engage a project coordinator to further develop your Action Plan.
- Research or activation of projects focused on one of the 8 Domains of Livability.
 - For example, adding park benches or improving existing park structures or trails would support the **Outdoor Spaces and Building** domain.
- Host public sessions to enlighten the community, solicit feedback and ideas, advance team formation and the recruitment of volunteers to support future initiatives.

This list of examples is simply a starting point.

How funds are invested will be at the discretion of each community; however, grant recipients will be asked to summarize how funding was allocated in a final report to be submitted at the conclusion of this project

2025 Proposal Deadlines, Eligibility and Review Process:

- Be an MVRPC member agency and an eligible tax-exempt public agency
- Make a commitment to becoming a designated age-friendly community by joining the AARP/World Health Organization (WHO) Network of Age-Friendly States & Communities
- The funding review process includes a thorough review of the merits of each proposal
- To be fair to all applicants and to permit adequate time for the review process, any proposals received after 11:59 p.m. on the deadline will be not be considered
- Proposals must be submitted by a person authorized by the organization
- If any sections of the proposal are incomplete, a written statement must be submitted explaining the reason(s)
- A copy of the organization’s most recently completed audit, including auditor’s notes or a balance sheet and income statement covering the agency’s most recently completed fiscal year.

Proposal Deadline	Decision Date	Grant Completion By
April 1	May 1	June 1, 2026
July 1	August 7	September 1, 2026
October 1	November 6	December 1, 2026

Proposal Guidelines - All proposals are due no later than 11:59 p.m. by Proposal Deadlines

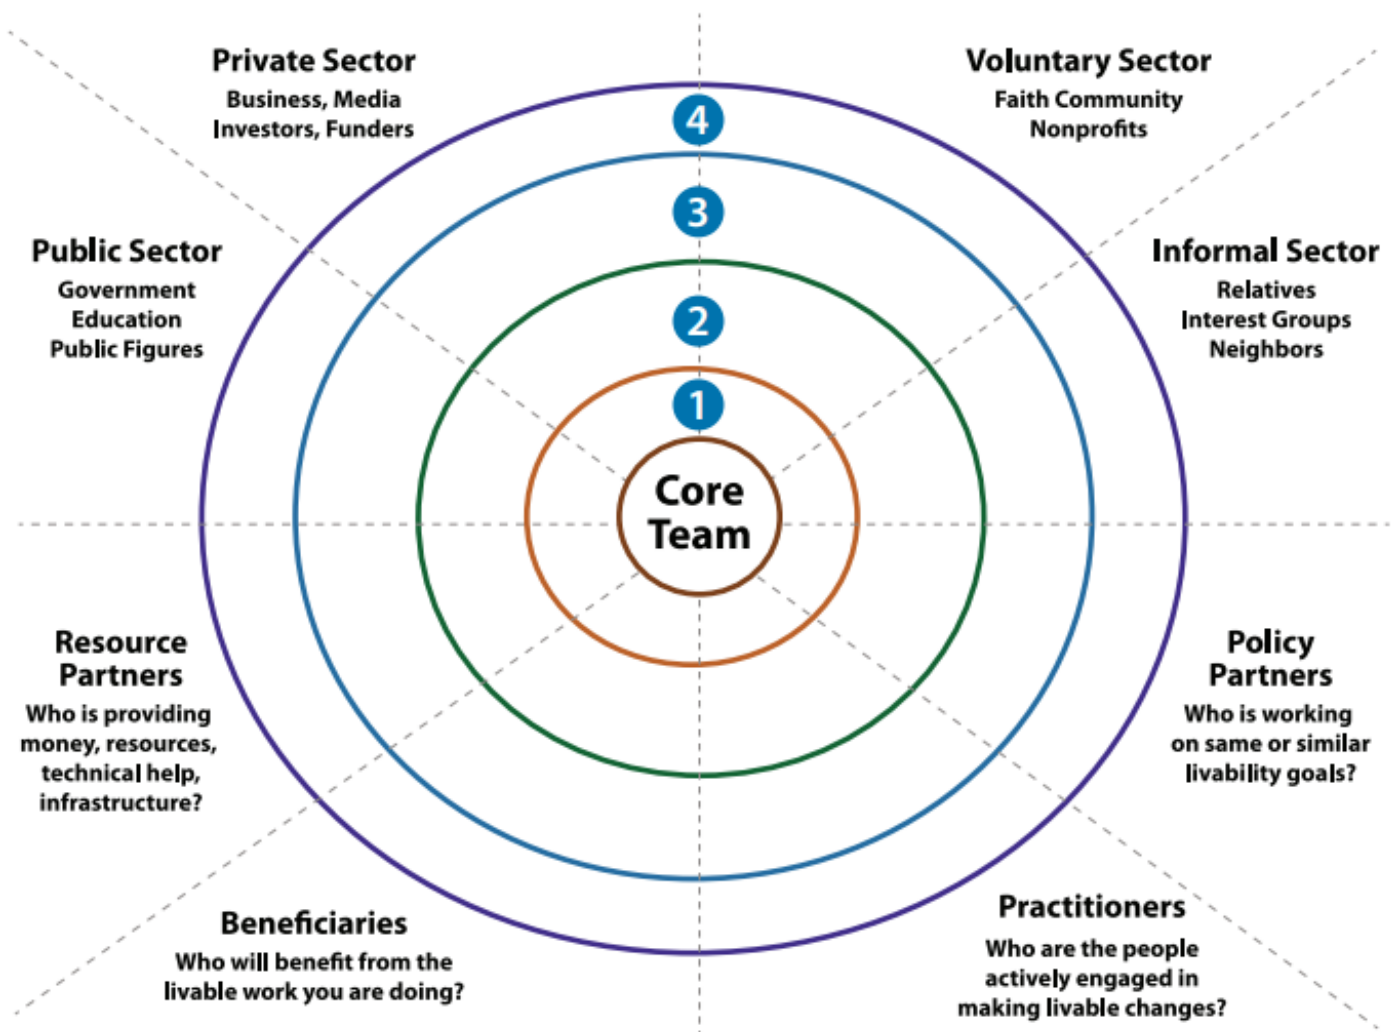

Please send all documentation as email attachments (PDF documents preferred) to Arnie Biondo, abiondo@mvrpc.org. You will receive an email confirmation when your proposal has been received. If there are additional questions about your proposal, MVRPC will contact you.

Final Decision and Notification

- All proposals are reviewed by the Institute for Livable and Equitable Communities and recommended to MVRPC Board for approval. Once approved, MVRPC will contact you.
- Projects are funded through The Dayton Foundation.
- All funds will be distributed via Electronic Funds Transfer (EFT). If selected, you will be asked to complete a full application for funds and written EFT Authorization Form from The Dayton Foundation if the Foundation does not already have the necessary information.
- Awarded Grantees will be invited to attend an orientation virtually or at The Dayton Foundation to introduce the program, provide training, define expectations and answer questions.

Project Deliverables:

- Conduct a comprehensive livability/needs assessment to better understand community members' perceptions, behaviors and satisfaction with elements related to AARP's 8 Domains of Livability framework used by those enrolled in the AARP Network of Age-Friendly States and Communities. This assessment process should also explore opportunities to ease disparities and/or advance equitable outcomes for historically marginalized or disinvested populations.
- Prepare and submit a mid-year and final report that captures steps taken/progress and key findings from all assessment efforts, as well as details on how funds were invested.
- Establish a core team of stakeholders/volunteers who are interested in advancing age-friendly initiatives and have capacity to support progress for this program. To learn more about establishing a core team, view the graphic below and review page 10 of [Book 1: Roadmap to Livability](#).

Additional Grant Expectations

- Press Release: each organization receiving a grant is required to publish an acknowledgement of the grant. The publicity may be in the form of a press release, an annual report, a brochure or materials related to the project or in some other means of communication. All public recognition should acknowledge the Institute for Livable & Equitable Communities at MVRPC and The Dayton Foundation. Note: All acknowledgements and any publicity regarding the grant must be submitted to for review and comment prior to publication/release to the public.
- Narrative and financial reports: will be required during the grant period to include an interim and final report. Examples of the reporting requirements can be provided upon request.

PART 2: PROJECT SUMMARY

Please summarize your project proposal, including brief, but specific responses to the following: providing a 3-4 sentence paragraph per question

Name of Community	
Anticipated Project Budget	

Tell us why you are interested in pursuing Age-Friendly Communities designation.

Collaboration amongst eligible MVRPC members is encouraged. Tell us more about how you will partner with other communities and public agencies.

What are the current strengths of your community as related to age-friendliness?

What are the areas where you feel your community could be more age-friendly?

It is important to consider engaging early and to establish a core team & stakeholder groups. How will you involve your residents and community stakeholders in this effort?

What strategy for survey implementation and/or community outreach will you use to ensure underserved populations are a part of the effort or captured?

If awarded, who would be the representative/s from your community to participate in the Miami Valley Age-Friendly Communities Cohort? (described on page 4)

BACKGROUND INFORMATION

CHART FROM THE U.S. CENSUS BUREAU

Fact: The population of the United States is rapidly aging. Per AARP:

- By 2030, one of five people in the U.S. will be 65 or older
- By 2034, for the first time in history, the number of adults older than 65 will be greater than the number of children under 18.

Fact: The Miami Valley region has experienced this age demographic shift sooner than others. By 2020, older adults have outnumbered younger, and experts predict this will intensify for at least the next two decades (statistics derived from Ohio Development Services Agency, Office of Research, 2018).

Our communities need to prepare for the rapid aging of the US population, with more attention focused on addressing environmental, economic, and social factors that influence the health and well-being of older adults.

The AARP Network of Age-Friendly States and Communities (NAFSC)

AARP is the US affiliate of the World Health Organization's global network for age-friendly cities and communities. The [Network of Age-Friendly States & Communities](#) (NAFSC) helps cities, towns, and states prepare for the rapid aging of the U.S. population. It is not politically motivated or affiliated.

The NAFSC is a national movement of elected & community leaders who have made a *formal commitment* to actively work toward making their town, city, county or state a great place to live for people of all ages. Joining the Network isn't a certification or designation that your community IS age-

friendly. Rather it's a public commitment by local leadership to BECOME an age-friendly community. The NAFSC is a program within the larger AARP Livable Communities Initiative. It is hands on, locally determined and directed. AARP engages with elected officials, partner organizations and local leaders to guide communities through the age-friendly network's assessment, planning, implementation and evaluation process. To learn more about the process, watch [Age-Friendly Network Training](#).

Age-friendly, livable communities are places where the built and social environments are accessible to and inclusive of all residents. People of all ages benefit from the adoption of policies and programs that make neighborhoods walkable, feature transportation options, enable access to key services, provide opportunities to participate in community activities and support housing that's affordable and adaptable. Well-designed, age-friendly communities foster economic growth and make for happier, healthier residents of all ages. Age-Friendly livability projects across the country have been successfully implemented in communities of all sizes and in places that are urban, suburban and rural.

Why Become an Age-Friendly Community

- Being an Age Friendly/Livable Community **benefits all ages**. Barriers are removed, projects that result are designed for diversity, and the community becomes more inclusive and cohesive. Age-friendly communities are great places to live, have a family, and grow older in.
- Engaging in the process to become an Age-Friendly Community **enhances social relationships and bonds** among all community residents. It provides opportunities for residents from different backgrounds and ages to interact and get to know each other, thus facilitating community integration. People feel included and involved.
- There are **economic benefits** to engaging older adults. Older adults and people from different backgrounds expand the labor pool and help address labor shortages. Older adults start more new businesses than young adults, helping to grow the local economy.
- There are **social benefits**. Older adults serve the community through volunteering and civic engagement. All of us are social creatures and our lives are improved by the quantity and quality of our relationships and interactions with others. Never more so than now.
- Age-Friendly communities have **healthy and connected** neighborhoods that improve the quality of life for all.
- Age-Friendly communities **have lower public and personal costs** related to illness and health care.
- Becoming an Age-Friendly community brings **opportunities for coordination and collaboration** among all 8 AARP Domains: Housing, Transportation, Communication & Information, Civic Participation & Employment, Respect & Social Inclusion, Social Participation, Outdoor Spaces & Buildings and Community Support & Health Services.

- Many private businesses and corporations, as well as the federal government look at the **AARP Livability Score** as a determinant of where to locate their businesses or programs.
- Having the official designation provides access to **technical assistance, information, resources** and invaluable **connections** to other Age-Friendly/Livable Communities: large and small, rural and urban.
- There are extensive **funding sources specifically designated for Age-Friendly/Livable Communities** on the local, state, national and even international level (Age-Friendly is a World Health Organization designation). Funds range from small Challenge Grants from AARP to larger projects for recreation, housing, health, transit, mobility, internet, etc.
