

**MVRPC Board of  
Directors  
February 5, 2015**

# GIS at MVRPC

***Going Places*** was the catalyst

- Conclusion: use Implementation Tools as main component to support ***GP*** goals
- Tools will have MVRPC **Lead**, **Partner** or **Support**
- GP committee voted strongly for an implementation tool called “Shared Regional GIS”
- MVRPC staff created a business plan for GIS in order to **Lead** this effort

# GIS at MVRPC

MVRPC's regional GIS:

- Better member access to enhanced GIS services
  - Transportation, environment, census, land use layers
  - Boosting the capacity of member communities
- Address regional needs for geospatial coordination
  - Identify, prioritize applications and layers that are used and/or needed

# GIS at MVRPC

Two components to MVRPC's GIS:

- GIS Professional Support Services (PSS)
  - 'short range' but long lasting
- Regional Geospatial Coordination (RGC)
  - 'long range' but needed to see the big picture

# GIS at MVRPC

GIS Professional Services Support (PSS):

- **Service-oriented program**
  - Help to *update* your GIS layers
  - *Train* staff on using GIS software
  - Help you *maintain* your GIS layers
  - *Publish* these layers to the web
  - *Connect* your community with neighboring ones via GIS
  - Multiple subject areas
  - Ongoing: Miami County zoning

# GIS at MVRPC

Regional Geospatial Coordination (RGC):

- **Partnership program**

- More collaborative and long term
- Working group of GIS professionals
- Will involve needs assessment survey
- Determine specific layers that will benefit the region
- Discover useful applications that will benefit the region
- Ongoing: SWOGIS, Needs Assessment

# GIS at MVRPC

This program is in place to help you!
