MEMORANDUM

To: Technical Advisory Committee, Board of Directors
From: MVRPC Staff
Date: April 5, 2023
Subject: Final SFY2024-2027 Transportation Improvement Program (TIP)

The Federal Highway Administration (FHWA)/Federal Transit Administration's (FTA) Statewide and Metropolitan Planning regulations require the development of both a State and Metropolitan Transportation Improvement Program (TIP). The ODOT Biennial STIP/TIP Development standard requires the submittal of Final TIP's to ODOT Central by May 1, 2023.

Staff has closely coordinated the development of the Draft TIP with all project sponsors including local jurisdictions, transit operators, and ODOT. Staff held a public involvement meeting to present the Final TIP on April 6th. A summary of public involvement comments is included as an attachment.

The TIP includes highway, bikeway, transit and other projects which are entered into ODOT's ELLIS project tracking system to help develop milestones and establish dates when projects will require federal funding authorizations through the STIP/TIP. Projects are entered into and tracked through ELLIS by establishing a project identification (PID) number. ODOT tracks programmed projects to ensure they meet development milestones and completion dates and the STIP/TIP then allocates federal funding as needed for preliminary engineering (ENG), Right of way (ROW), and construction (CON).

The highway/bikeway section of the Final SFY2024-2027 TIP includes tables listing projects for each one of our three counties plus the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County. Table 4.1 (Greene County), Table 4.2 (Miami County), Table 4.3 (Montgomery County), Table 4.4 (Warren County jurisdictions) and Table 4.5 (Areawide/Statewide and planning projects) show highway, bikeway, and other improvements for which some phase of work will be advanced during SFY2024-2027. As required by ODOT, projects are sorted in the tables by the "County-Route-Section" number. Any federally funded phases of work during SFY2024-2027 must be approved by the FHWA prior to the encumbrance of federal funds. Tables 4.1 through 4.5 were initially developed utilizing the previous SFY2021-2024 TIP tables and have been modified to incorporate updated schedules and cost information for currently approved projects as well as all new projects.

Projects not considered to be of appropriate scale for individual identification in a given program year may be added to the STIP by statewide line item. Table 4.6 provides the current list and descriptions of projects utilizing statewide line items in MVRPC's region for SFY2024-2027. This table is provided for information only and specific projects in this table are not included in the TIP and are not subject to TIP Amendments.

Federal regulations require that any projects included in the Eastern Federal Lands Highway Division (EFLHD) TIP that are located within MPO boundaries must also be shown in MPO TIPs. Therefore, Table 4.7 details EFLHD TIP projects located within the MVRPC MPO area.

MVRPC's highway fiscal analysis is also part of the Final SFY2024-2027 TIP and includes tables listing projects for our MPO area. Table 4.8 documents the fiscal analysis for MVRPC controlled funding sources. For the highway/bikeway program, the fiscal constraint is based upon the State's estimate of Federal encumbrances/allocations through SFY2027.

The Transit section of the TIP includes separate tables (5.1 to 5.3) for each of the transit entities in the Region, GDRTA, Greene CATS and Miami County Transit, as well as the ODOT Office of Transit (5.4).
