**V. INFORMATION ITEMS**

**A. Going Places Implementation Tools Progress Update**

Mr. Kim provided a progress update on the PLAN4Health Miami Valley initiative, highlighting its alignment with four of the eleven [Going Places Implementation Tools](#). He stated that MVRPC’s PLAN4Health – Miami Valley Initiative, was launched in spring of 2021, and aims to explore how planning can impact health outcomes across the Region. The goals of the program are to: Promote and advocate for health in all plans and policies, convene and engage partners to improve conditions that are known to be key determinants of health, and advance planning efforts aimed at creating conditions for healthy people and communities.

Mr. Kim explained the importance of healthy food options and provided an overview of the [Regional Food System](#). He then shared data from the food systems, food assets, food security and food access noting that our development choices impact our food environment and health outcomes. Mr. Kim then provided reference links to the materials presented and then opened the floor for questions. He discussed that the short-term next steps are to provide more healthy options such as a farmers’ market and community gardens. And long-term next steps are to plan and talk about health within the planning process. He explained that health has not been a part of the planning process for comprehensive land use plans and this is a great enhancement.

Mr. Kim announced a new service for MVRPC members “[Advancing Active Living Workshop Series](#)”, a free workshop tailored to each member communities’ unique needs.

## MEMORANDUM

**To:** Technical Advisory Committee, Board of Directors  
**From:** MVRPC Staff  
**Date:** April 7, 2025  
**Subject:** SFY 2025 Conformity Finding Request for the 2050 Long Range Transportation Plan (2050 LRTP)

The 2050 LRTP will undergo a full update in SFY 2026 consistent with 23 CFR 450.324 (c) (***Federal Highway Regulations***) which requires MPOs to confirm the transportation plan's validity and consistency with current and forecasted transportation and land use conditions every 5 years in attainment areas including ozone orphan areas. As such MVRPC is in the process of adjusting the base year socioeconomic data and projections to the 2020 Census values, but the analysis so far indicates that the current socio-economic forecasts track well with the 2020 Census and at the regional level and no significant changes to travel forecasts are expected. Similarly, all currently known regionally significant projects proposed for funding in the SFY 2026-2029 TIP are accounted for in the 2050 LRTP and 2050 will remain as the horizon year.

However, in order to comply with 40 CFR 93.104 (b) (3) (***Federal Air Quality Regulations***) which requires a conformity determination for regional transportation plans no less frequently than every four years, MVRPC is advancing a conformity determination for the existing 2050 LRTP consistent with U.S. EPA's November 29, 2018 guidance for ozone orphan areas and interagency consultation.

Upon concurrence by the Board of Directors, the attached resolution will be forwarded to our federal partners (U.S. DOT and U.S. EPA) for a formal conformity finding.

**WHEREAS**, the 2050 Long Range Transportation Plan is fiscally constrained; and

**WHEREAS**, the MVRPC SFY2026-2029 Transportation Improvement Program (TIP) Update is consistent with the existing 2050 Long Range Transportation Plan; and

## MEMORANDUM

**To:** Technical Advisory Committee, Board of Directors  
**From:** MVRPC Staff  
**Date:** April 7, 2025  
**Subject:** Final SFY2026-2029 Transportation Improvement Program (TIP)

The Federal Highway Administration (FHWA)/Federal Transit Administration's (FTA) Statewide and Metropolitan Planning regulations require the development of both a State and Metropolitan Transportation Improvement Program (TIP). The ODOT Biennial STIP/TIP Development standard requires the submittal of Final TIP's to ODOT Central by April 30, 2025.

Staff has closely coordinated the development of the Draft TIP with all project sponsors including local jurisdictions, transit operators, and ODOT. Staff held a public involvement meeting to present the Final TIP on March 27<sup>th</sup>. At this point, no public comments have been received.

The TIP includes highway, bikeway, transit and other projects which are entered into ODOT's ELLIS project tracking system to help develop milestones and establish dates when projects will require federal funding authorizations through the STIP/TIP. Projects are entered into and tracked through ELLIS by establishing a project identification (PID) number. ODOT tracks programmed projects to ensure they meet development milestones and completion dates and the STIP/TIP then allocates federal funding as needed for preliminary engineering (ENG), Right of way (ROW), and construction (CON).

The highway/bikeway section of the Final SFY2026-2029 TIP includes tables listing projects for each one of our three counties plus the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County. Table 4.1 (Greene County), Table 4.2 (Miami County), Table 4.3 (Montgomery County), Table 4.4 (Warren County jurisdictions) and Table 4.5 (Areawide/Statewide and planning projects) show highway, bikeway, and other improvements for which some phase of work will be advanced during SFY2026-2029. Projects are sorted in the tables by the Project Identification (PID) number. Any federally funded phases of work during SFY2026-2029 must be approved by the FHWA prior to the encumbrance of federal funds. Tables 4.1 through 4.5 were initially developed utilizing the previous SFY2024-2027 TIP tables and have been modified to incorporate updated schedules and cost information for currently approved projects as well as all new projects.

Projects not considered to be of appropriate scale for individual identification in a given program year may be added to the STIP by statewide line item. Table 4.6 provides the current list and descriptions of projects utilizing statewide line items in MVRPC's region for SFY2026-2029. This table is provided for information only and specific projects in this table are not included in the TIP and are not subject to TIP Amendments.

MVRPC's highway fiscal analysis is also part of the Final SFY2026-2029 TIP and includes tables listing projects for our MPO area. Table 4.7 documents the fiscal analysis for MVRPC

controlled funding sources. For the highway/bikeway program, the fiscal constraint is based upon the State's estimate of Federal encumbrances/allocations through SFY2029.

The Transit section of the TIP includes separate tables (5.1 to 5.3) for each of the transit entities in the Region, GDRTA, Greene CATS and Miami County Transit, as well as the ODOT Office of Transit (5.4).

## MEMORANDUM

**To:** Technical Advisory Committee, Board of Directors  
**From:** MVRPC Staff  
**Date:** April 4, 2025  
**Subject:** Adoption of Resolution of Self-Certification of the Metropolitan Transportation Planning Process

Concurrent with the submittal of the Transportation Improvement Program, MPOs are required to adopt a resolution of self-certification of the metropolitan transportation planning process. The resolution basically states that MVRPC is following the metropolitan transportation planning processes and procedures that are set forth by the Federal and State governments.

Based on the planning efforts undertaken since the last resolution, and based on the U.S. DOT's favorable certification report in November 2021 (the result of the eighth Federal quadrennial review), staff recommends the MPO Board of Directors adopt the enclosed resolution.

**RESOLUTION 25-13**  
**ADOPTION OF SELF-CERTIFICATION OF THE**  
**METROPOLITAN TRANSPORTATION PLANNING PROCESS**

**WHEREAS**, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) for the Dayton Urbanized Area (Greene, Miami and Montgomery Counties and the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County) by the Governor of the State of Ohio, acting through the Ohio Department of Transportation, in cooperation with local elected officials for the Urbanized Area, and as evidenced in the Agreement of Cooperation, Number 38476 between ODOT and the MVRPC; and

**WHEREAS**, the federal regulations published as 23 CFR 450.336 requires MVRPC, as the MPO for the Dayton Urbanized area, to self-certify through its Board of Directors (MVRPC's policy board) in conjunction with the Transportation Improvement Program update, that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with the following applicable requirements:

- (a) 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- (b) In non-attainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- (c) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (d) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;

Policies and Procedures

For Considering

Major New Capacity Projects

*April 2025*

## Overview of the TRAC

The goal of the TRAC is to envision the transportation system of the future, and select transportation investments that will allow Ohio to realize that vision by choosing the best transportation investments among all modal alternatives to best serve the people of Ohio.

Since its inception, the purpose of the TRAC has been to help make decisions on major statewide and regional transportation investments. It was not created to fund local roadway and bridge projects. In fact, ODOT has several programs to aid local transportation investments.

As stated in the Policies and Procedures, the TRAC is aligning its project selection criteria to: pursue a more balanced and integrated multi-modal transportation system; embrace environmental stewardship; promote community economic growth and development; and leverage state transportation investment. This alignment will require a new more dynamic relationship with local government.

**Please refer to the TRAC Policies and Procedures for selecting Major New Capacity projects for further guidance not included in this policy.** The policy includes TRAC's principles for selecting the scoring criteria and how the criteria are used to score projects. It also contains scoring tables and protocols on how the process will be conducted.

The above-mentioned information is available at:

<http://www.dot.state.oh.us/trac/Pages/Default.aspx> and <https://www.mvrpc.org/transportation/transportation-financing/transportation-review-advisory-council-trac>

The TRAC defines a major new capacity project as:

**Definition:** Major New Capacity projects cost ODOT more than \$12 million and do one or more of the following: increase mobility, provide connectivity, increase the accessibility of a region for economic development, increase the capacity of a transportation facility, or reduce congestion. This definition includes all new interchanges proposed for economic development or local access, any significant interchange modifications, bypasses, general purpose lane additions, intermodal facilities, major transit facilities, passenger rail facilities, or Intelligent Transportation Systems (ITS).

### ***Procedure for Submitting Major New Capacity Projects***

The TRAC application Cycle will be determined by ODOT on an annual basis. TRAC Applications will be web based, available through the TRAC website.

TRAC has not placed any restrictions on applications beyond the requirements for eligibility of the Major New Program for the 2025 solicitation cycle.

A full copy of the TRAC applications, supporting documents and all MVRPC PES scoring documents should be submitted electronically by the project sponsor to the respective ODOT Districts and MVRPC. The original application and all other attachments are required in PDF file format. Project sponsors must provide a resolution endorsing the submittal of the TRAC application. If the resolution is not available by the solicitation deadline, please coordinate delivery of the resolution as soon as possible following the next local council, commission, or trustees meeting.

### **MVRPC's Major New Capacity Project Ranking System**

MVRPC will only rank projects that are already in the LRP. Projects must be in the LRP to be eligible for TRAC funding. The MVRPC ranking system is made up of two different project ranking categories, first being the Basic Project Evaluation System (PES) score and the second being the project readiness score.

The first category, the Basic PES score, was derived using the system as described in Chapter 5.5 (page 69-71) of the 2050 LRTP. A maximum total of 70 points is possible under the Basic PES scoring system.

The second category, project readiness, is made up of ranking criteria that were created by MVRPC staff and are designed to fairly and equally evaluate all traditional and non-traditional projects. The evaluation criteria and point values are shown below, a maximum project readiness score possible is 20.

Project readiness evaluation criteria and point values:

- Preliminary / feasibility study status: if study has started, 1 point, if complete or not needed, 2 points.
- Major Investment Study status: if MIS started, 1 point, if complete or not needed, 2 points.
- Environmental study status: if study has been started, 1 point, if study is completed, 3 points.
- Does the project have a formal funding plan at this time? If environmental study is funded = 1 point, if formal design costs are funded = 1 additional point.

- Detailed design status: if detailed design has begun, 2 points, if detailed design is completed, 4 points.
- Right of way status: if the acquisition cost is currently committed, less than 50% = 0 points, more than 50% but less than 100% = 1 point, 100% = 2 points, if right of way has already been fully acquired or is not needed, 2 points.
- Has the total project cost been supplemented by non-TRAC funding sources? Points earned for different percentages of total project cost supplementation are as follows:

*00.01% to 10.00% = 0 points*

*10.01% to 25.00% = 1 points*

*25.01% to 40.99% = 3 points*

*41.00% and greater = 5 points*

Positive answers to the above criteria are a good indication of how far the project has advanced in the transportation development process.

The final project score is a combination of the Basic PES score (maximum total of 70 points) and the weighted (1.5 \*20) Project Readiness score (maximum total of 30 points) for a maximum combined score of 100 points.

Projects will be reviewed and scored by MVRPC staff. Draft staff scores will be returned to the project sponsors and a meeting with the project sponsors will then be held in order to come to a consensus on the final project scores. Following the project sponsor meeting, the resulting ranked listing will then be presented to the MVRPC Technical Advisory Committee (TAC) and Board of Directors for final ranking prior to preparation and forwarding to the TRAC, for their official public hearing.

**Date:** April 17, 2025  
**Subject:** Functional Classification Update Information

On February 2024, the MVRPC Board of Directors approved the 2020 update of the Dayton Urbanized Area Transportation Boundary. This was the first step in the process of updating the functional classification of roadways within the MVRPC area.

During January-February 2025, MVRPC staff worked with ODOT and local jurisdictions to review and update the functional classification of roads, the results can be seen in the attached map.

The draft map is being distributed for review and comment by the MVRPC TAC during the regularly scheduled April meeting. Please submit additional comments or concerns to Aaron Lee at [alee@mvrpc.org](mailto:alee@mvrpc.org) by May 5, 2025.

Based on comments received, changes will be made and a final map will be distributed to the TAC and Board of Directors for adoption during the May and June meetings.

## MIAMI VALLEY

Regional Planning Commission

Shaping Our Region's Future Together

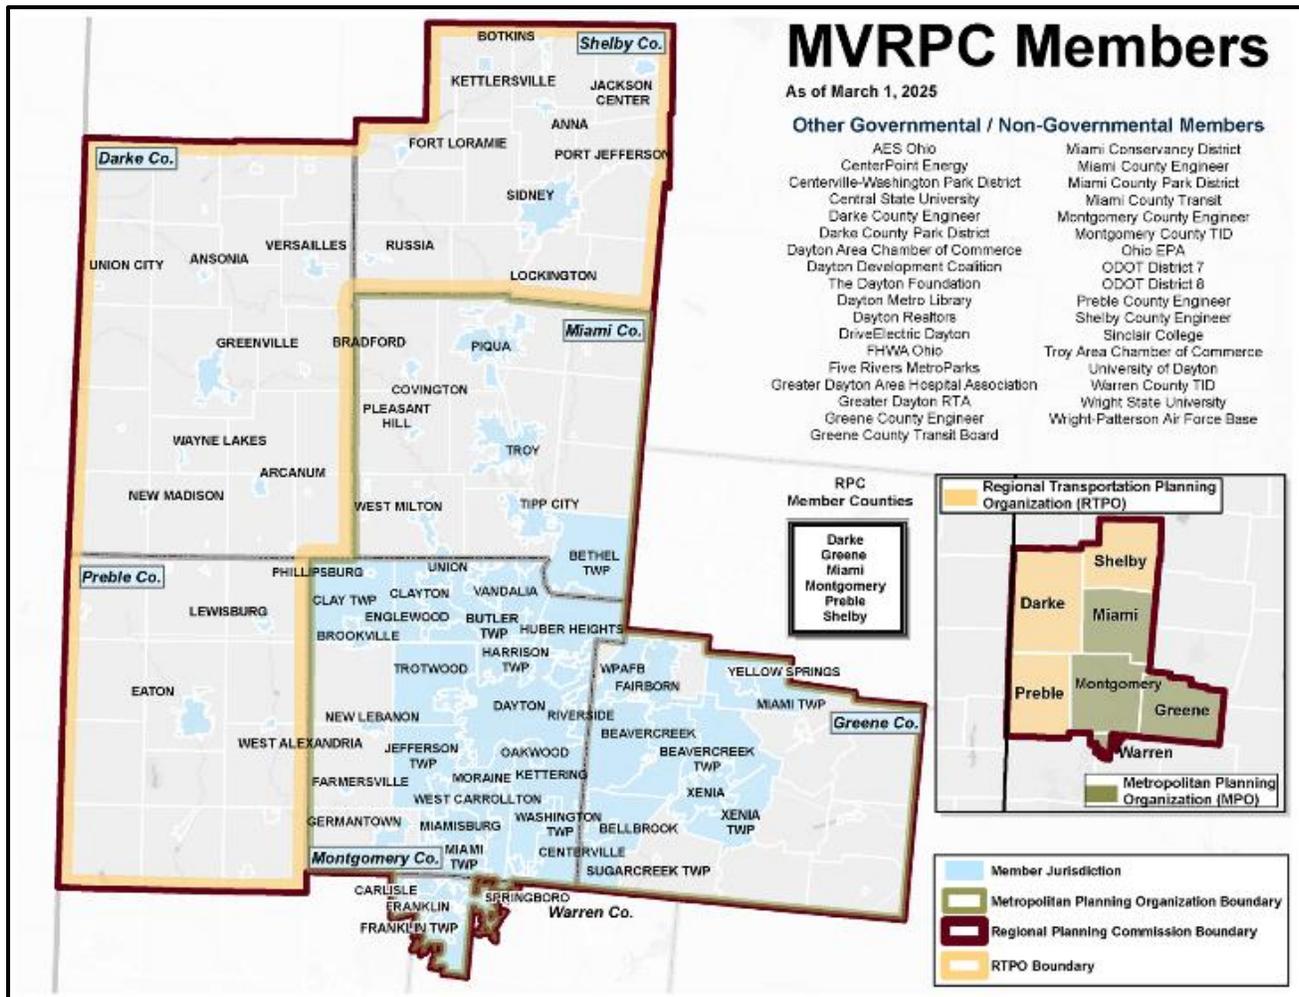

April 2025

### Join us in Welcoming the Village of West Alexandria as MVRPC's Newest Member!

MVRPC proudly welcomes the Village of West Alexandria, located in Preble County, as our newest member. This charming village, founded in 1818, has a rich history and a strong sense of community conveniently situated along State Route 35. The village is led by Mayor Jeff Hickey, alongside an engaged Village Council and key officials such as the Village Administrator, Fiscal Officer, and Police Chief.

With the addition of West Alexandria, MVRPC now has 106 members, including 71 governmental entities and 35 non-governmental organizations, all working together to strengthen the Miami Valley Region.

## Settling In: MVRPC's Move, Office Updates, and NATO Impacts

MVRPC began moving into our new office location at [6 North Main Street, Suite 400](#) in Dayton on December 26, 2024. The team of Mike Lucas, Elizabeth Baxter and Savannah Diamond, IT consultants, and move vendors made the process of moving easier for the remainder of the team. Periodic contributions by all members of the staff as they began to report to the new office from January 3, 2025 through current has made the sterile office shell start to look and feel like MVRPC offices. Staff contributions from setting up the kitchen, organizing furniture, installing pictures, setting up the conference rooms as well as their personal offices were greatly appreciated. Every

aspect of forming our new home: parking locations, vehicle loading and unloading, using the loading dock, what to do and where to go in case of emergencies, wi-fi and use of computer, use of A/V, drinking water, furniture assembly, use of elevators and stairs has been tested and procedures developed so far.

A wrinkle in our planning has been the [NATO Parliamentary Assembly](#) and associated street and sidewalk improvements around Courthouse Square, the proposed NATO Village. From what we learned last week during our first formal update meeting on NATO Village, due to logistical challenges of the NATO Parliamentary Assembly, our physical office will be closed to staff and the general public **from Tuesday, May 20th through Monday, May 26<sup>th</sup>** (Memorial Day Holiday). Staff will work virtually during this time. We include the holiday because this is the final day of the NATO meetings.

The NATO Village security perimeter will be in place from May 20th to May 27th, with restricted access to the area, limited parking, and expected traffic congestion. The Arts Garage will be limited to parliamentarians and their guests.

We are asking officials when the perimeter will be fully disassembled so that we can resume our in-office schedules on May 27. If they can't ensure opening by 7:00 a.m. on Tuesday, we'll add May 27 to the office closure calendar.

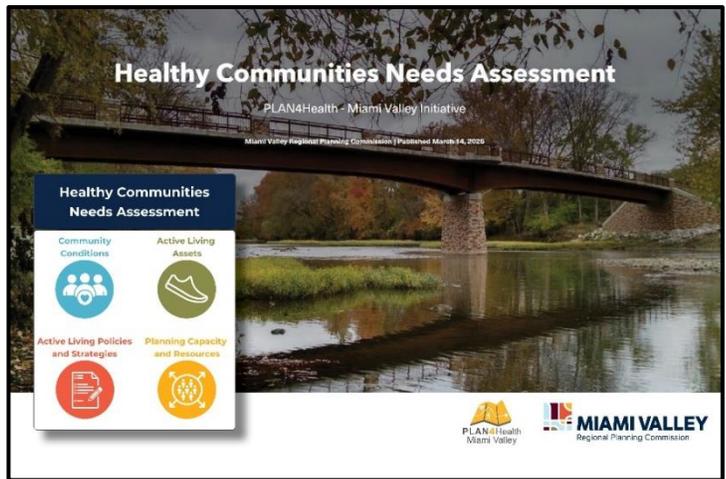

Other necessities still under construction in the office includes:

1. Addressing cool airflow in the east-facing offices
2. Purchasing additional blinds for the interior offices
3. Landlord purchasing replacement blinds in some exterior offices
4. Purchasing shelving for our library
5. Hanging photos throughout our offices
6. Customizing light brightness choices in select offices
7. Purchase and installation of audio video equipment.

While we certainly enjoy the modern look of our new space compared to our former location which was our home for 10 years, the change has been challenging. We remain optimistic that the remaining necessities will be installed and addressed prior to our planned Open House which is currently contemplated for early June.

## MVRPC Releases the Healthy Communities Needs Assessment

MVRPC is pleased to announce the publication of the Healthy Communities Needs Assessment, the sixth project of the PLAN4Health - Miami Valley Initiative. In the spring of 2024, a survey was sent to jurisdictions across the Miami Valley asking questions designed better understand current planning practices, learn about the barriers and opportunities facing communities, and identify resources that are needed to advance planning for healthier communities in the Miami Valley Region. The findings from these survey responses are now available at [Healthy Communities Needs Assessment](https://arcg.is/194mWb) (<https://arcg.is/194mWb>).

MVRPC's PLAN4Health – Miami Valley Initiative was launched in the spring of 2021 to explore how planning can impact health outcomes. This multi-year effort with a focus on projects and programs intended to:

- Promote and advocate for “Health in All Plans and Policies”
- Convene and engage partners to improve conditions known to be key determinants of health
- Advance planning efforts aimed at creating conditions for healthy people and communities

The [Healthy Communities Needs Assessment](https://arcg.is/194mWb) covers four major topic areas related to planning and health: 1) Community Conditions for Health; 2) Active Living Community Assets; 3) Active Living Policies and Strategies; and 4) Planning Capacity and Resources. The information gathered from the survey revealed a number of barriers that are preventing communities from planning for health as effectively as they could be. Conversely, survey responses provided many great insights related to opportunities to break down these barriers.

The information from the [Healthy Communities Needs Assessment](https://arcg.is/194mWb) will be used during the upcoming **The Healthy Communities Planning Toolkit** project.

For additional information regarding PLAN4Health - Miami Valley Initiative and the Healthy Communities Needs Assessment, contact Martin Kim, MVRPC's Director of Community and Regional Planning, at [mkim@mvrpc.org](mailto:mkim@mvrpc.org).
