- List based on 2021 to 2023 crash data analysis and ranking of intersections in Montgomery, Greene, Miami, & northern Warren Counties.
- This list omits crashes that occurred on limited access freeways such as Interstates 70, 75, and 675, State Route 4, and US Route 35.
- Locations listed as Greene Co., Miami Co, and Montgomery Co. are on county or state owned roads outside of corporations.
- "Repeat High-Crash Location" indicates locations that were on high-crash lists from SFY2018 (2014 to '16 data) and SFY2021 (2017 to '19 data).
- "Project Funded" or "Project Planned" indicate repeat high-crash locations that have project(s) in the TIP or 2050 LRTP with potential to improve safety.
- "Project Completed" indicates a repeat high-crash locations that have a project recently completed at this location between SFY2021 and SFY2024 (between July 2020 and June '24).
